

## **Adjunct Research Track**

Adjunct Research Faculty appointments are made when an individual's primary employment responsibilities lie outside the University. This appointment indicates that the individual is working for a limited portion of his/her time (part-time) on a research project housed in the University of Michigan Medical School.

**Adjunct Research Scientist:** Appointment and promotion to this highest rank in the Research Scientist Track requires an internationally recognized record of continued excellence in research productivity and contributions. An Adjunct Research Scientist will have a sustained record of first-author and/or senior-author publications in peer-reviewed journals. An Adjunct Research Scientist will have served as principal investigator on center grants, major grants (e.g. NIH R01) or equivalent. A significant and sustained record of participation in relevant professional meetings is expected of a Adjunct Research Scientist.
