

Clinical Instructor: A Clinical Instructor is fully trained to provide clinical care and is qualified to participate in educational programs at the University of Michigan Medical School. Appointment to this rank requires evidence that the individual has received an appropriate medical and graduate medical education and documentation of full clinical competence. Certification by the relevant professional board must be pending or completed, recognizing that exceptions for some internationally trained physicians may be granted by the Medical School. Evidence of competence in clinical and didactic teaching is expected. Letters from individuals with firsthand knowledge of the candidate are helpful in documenting the candidate's clinical competency, suitability for an academic medical environment, potential as a teacher and clinical role model, and potential for growth in clinical and scholarly areas. Publications in a candidate's professional field are encouraged but not required.
